Geauga Mama Dogs and Pups

Geauga Mama Dogs and Pups is a private, independent, non-profit (501c3) group focused on the care and rescue of pregnant dogs, mom dogs with litters, and puppies under six months old.

Our goal is to give each Mama dog and each puppy that comes into our care the nutrition, medical support, and love needed to become a healthy happy family pet.

What We Do

Entirely volunteer based, including board members and director.

No staff. No physical shelter.

Over 120 volunteers who make our program work.

Dedicated volunteer drivers for transport.

Volunteers equipped to care for pregnant mom dogs and litters.

Experts volunteering their time to bottle feed orphaned pups.

Lare core of volunteer fosters who take pups into their homes.

Why We Do This

Dog pounds and shelters are simply not equipped to provide mom dogs with the care they need, nor are they safe places for young puppies before they have been vaccinated to protect them from common diseases.

We collaborate with the following organizations:

- Rescue Groups
- County Dog Wardens
- Animal Control Officers
- Private Citizens
- Animal Protective Leagues

Geauga
MAMA DOGS AND PUPS

All the mom dogs and puppies who come to us need extensive medical and nutritional support.

They also need socialization and love to learn how to be part of a human family.

Without the kind of care that we provide, these animals often end up abandoned or euthanized.

Summary	Adult Dog	Female w/ Litter	Pregnant	Pups	Running Total
2022	75	92	34	3014	3215
